

SPECIFICATION
for fertiliser

GENEZIS PK 10:28

G7

Appearance:	solid, grey or lightly reddish granulated product
Physical quality:	smooth, does not powder away 95-98 % with 2-5 mm granules Moisture-content: max. 1,5 %

Effective substance content:

Phosphor, which melts in ammoniumcitrat:	10,0 % P₂O₅ (phosphor, which melts in water 9,5 % P ₂ O ₅)
Water-soluble potassium:	28,0 % K₂O
Calcium:	9,5 % CaO
Magnesium:	6,0 % MgO

The permitted deviation of the effective substance is according to law of EK 2003/2003

Packing:	in 50 kg polythene bags, in unit shipment on pallets, or without it in bulk, or in Big-Bags
Tenability:	in original packing, in one pallet height on dry, covered place 2 years long. In case of storing outside it must be protected from sun shining and precipitation.
Applications:	It is suggested for all kinds of field-, and gardening cultures, especially for cultures that need a lot of potassium and for grounds that are slightly provided with potassium. Its effective substances melt in water very good that's why it can be used both in autumn and in spring. In case of using it in autumn it is suggested to complete it with nitrogen-fertiliser.
